High-quality Exam Torrent & Valid Test Dumps & Reliable Guide Torrent

Exam : **2D00056A**

Title : **APSS Avaya Networking**

Vendor : **Avaya**

Version : **DEMO**

NO.1 There are 4 Global Support Services portfolios that are available to the Customer; Direct, Retail, Wholesale, and Co-Delivery. Which of these portfolios is sold only by Avaya and not by Partners?

- A. Direct (GX5300)
- B. Wholesale (Express) GX6300
- C. Co-Delivery (PASS) GX4300
- D. Retail (US Only) GX6100

Answer: B

NO.2 What does Avaya mean with delivering a "fit-for-purpose" solution?

- A. A fit-for-purpose network should offer the lowest priced solution
- B. A fit-for-purpose network provides more resiliency, better performance, less TCO, all while using less energy
- C. A fit-for-purpose network should experiment with the latest architectures and protocols
- D. A fit-for-purpose network only needs to implement a minimum of resiliency

Answer: A

NO.3 Which Avaya Switch is ideally suited to deliver today's pressing need for flexible, high-speed Ethernet connectivity in the high-performance Data Center Top-of-Rack (ToR) role?

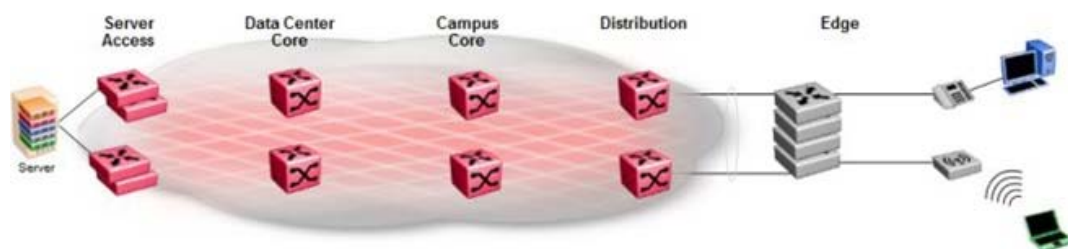

- A. V5P7000
- B. ERS4800
- C. VSP9000
- D. ERS 5000

Answer: D

NO.4 Select three reasons why Avaya typically recommends a two-tier design, designing a Campus solution. (Select three)

- A. Reduces the equipment needed
- B. It reduces complexity
- C. Does not compromise scalability and resiliency
- D. It cannot support a three-tier design

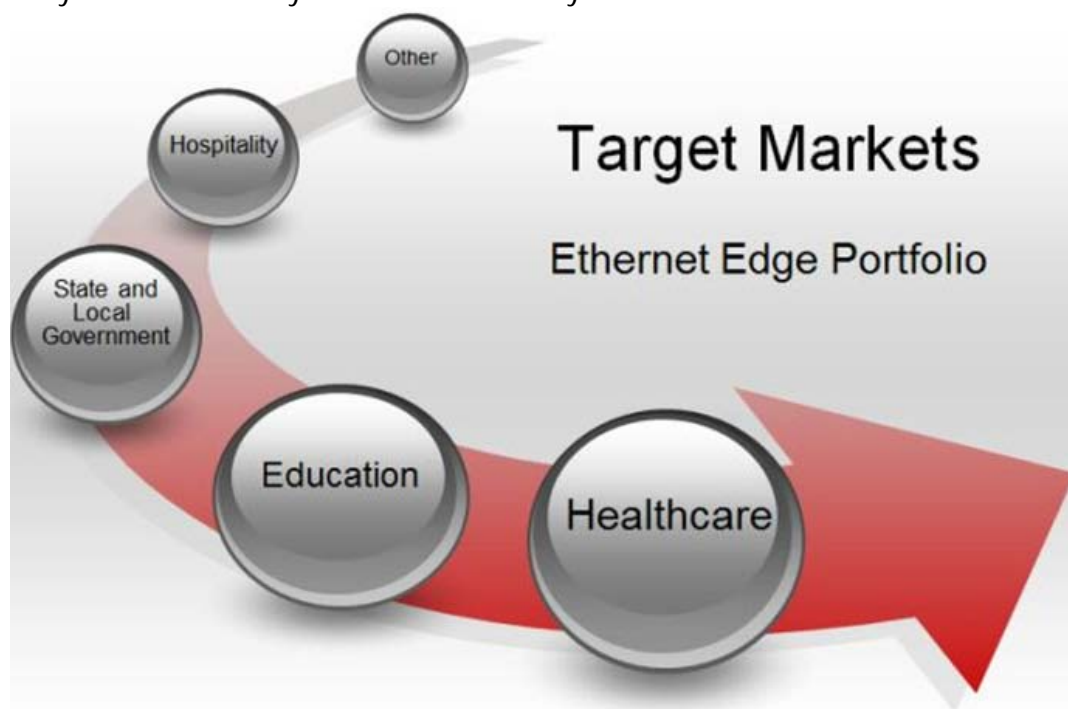

Answer: A,B,D

NO.5 How does Avaya VENA Fabric Connect help to reduce time-to-service? (Select two)

- A. Provisioning changes only need to be made to the edge of the network rather than to every device and link
- B. It replaces multiple legacy protocols with a vastly simplified implementation, extending VLANs Fabric-wide
- C. It uses industry standard CLI commands
- D. It uses MPLS in its core

Answer: A,C

NO.6 You are talking to a retail chain. They are looking for a cost-effective replacement for their old Netgear switches in all shops and require a switch that can be managed centrally. Which Avaya switches would you lead with and why?

- A. The ERS 4000 series because it is most versatile
- B. The ERS 5698TFD because it offers 96 x 10/100/1000, including 6 x Combo 1000BASE-T or 100/1000BASE-SFP, plus 2 x 10GBASE-XFP
- C. The ERS 3500 because it is the only switch that can be managed centrally
- D. The ERS 3500 because it includes small 8x1Gbps fanless models for quiet operation

Answer: C

NO.7 Which two of the following would you consider to be business benefits of Avaya's Fabric Connect technology? (Select two)

- A. Better time-to-service, because only those Switches at the Fabric Edge require provisioning
- B. Sophisticated QoS capabilities for the converged network. This ensures high user experience and productivity.
- C. High-density 10Gbps Ethernet
- D. ATA-over-Ethernet Storage transport

Answer: A,B

NO.8 A customer asks you about the benefits of stacking Avaya's Edge Switches. Which three of the following responses are correct? (Select three)

- A. Stacks share a single Power Supply, therefore save costs
- B. Stacks offer scalability. Units can be added as needed - up to eight
- C. Stacks are managed as a single entity
- D. Stacks protect against unit or cable failure with fail-safe stacking

Answer: A,C,D
