NO.4 A customer is upgrading part of the network, but also has existing infrastructure investments that the company wants to protect.

How does the HP FlexNetwork solution maximize value for this customer?

- A. It follows a siloed approach that protects legacy architectures.
- B. It follows a multi-vendor, interoperable, open protocol approach.
- C. It replaces the entire infrastructure for one low, flat rate.
- D. It enhances third-party, legacy hardware with an industry-leading warranty.

Answer: D

NO.5 What is one way that an HP FlexNetwork solution helps to make the network infrastructure cloud ready?

- A. It makes the network more agile, reducing provisioning time from months to minutes.
- B. It supports proprietary HP software-defined networking (SDN) protocols.
- C. It makes the architecture more sophisticated, with more tiers and aggregation points.
- D. It shifts more of the IT budget toward operating expenses (OPEX).

Answer: B
